TAKING TEACHING FURTHER

The Taking Teaching Further (TTF) programme has been developed to attract experienced industry professionals, with expert technical knowledge and skills, to work in Sixth Form and FE colleges.

The aim of the programme is to raise the profile and prestige of teaching, particularly among industry professionals. Increase the overall number of skilled technical teaching roles by helping our college to support experienced industry professionals with the training that they require to become FE teachers.

Shooters Hill Sixth Form College engage to support successful candidates not holding a Level 2 GCSE or Functional Skills in Maths and /or English, to gain a Level 2 Functional Skills in Maths and/or English prior to start their teaching qualification

RECRUITMENT FOR MATHS, ENGLISH AND SEND

non-qualified teacher will teach within the 'core skills' element, our aim is to support the recruitment of business and industry experts to teach English and maths, to technical subject students, or support learners with SEND into employment in our technical areas.

Both routes "Core skills" (Maths/English/SEND) and "Specialist Industry"

Trainee teachers will get a reduced timetable, Intensive support (work shadowing/ mentoring), and a teaching qualification at the end of 2 years.

The College will insure that they are trained and gain a teaching qualification within the 2 years of employment, they must be willing to take a Diploma in Education and Training (DET) at Level 5, while teaching with us. We are engaging to support them in their training by giving them extra support from an allocated mentor, we are expecting them to take part in all our CPDs.
